Mark,

As we discussed, here are the materials sent by the folks representing the Centreville residents. There's also a February newspaper article about this low-income African-American community of Centreville which has persistent failures of its sewage infrastructure—leading to backups in residents' homes and yards, https://www.stltoday.com/news/local/illinois/a-plea-for-help-centreville-s-sewage-and-drainage-problems-pose-health-safety-risks/article_3d6d22c7-8c57-5d1a-8af3-a6e6ee6ea2ee.html.

Earth Justice reached out initially looking for more information on an EJ grant RFP related to COVID-19 because they felt there might be additional health threats if it turns out that COVID-19 spreads through raw sewage. Current flood season only exacerbates their concerns.

Thank you,
maryann

Kathy, Alan and Maryann,

Per our telephone conversation last week and per your request, please find attached a few materials that summarize the issues in Centreville. Of course, we can provide further information and clarification if needed after you have reviewed the materials.
